FOCUS

- Full-stack web development
- Secure application development
- Scalable architecture
- User-friendly digital solutions

EDUCATION

BCA
Cybersecurity - Graduated

B.Sc. Mathematics
Academic level: Second Year

PROFILE

Bachelor of Computer Applications (BCA) graduate with a Cybersecurity background and a strong interest in full-stack web development. I work with frontend technologies, backend frameworks and relational databases to build modern software applications.

Interested in secure application development, scalable architecture and user-friendly digital solutions.

TECHNICAL SKILLS

Frontend
HTML5, CSS3, JavaScript, TypeScript, React, Tailwind CSS

Backend
PHP, Laravel, Node.js, REST API Development

Programming
C, C++, Java, Python, JavaScript, PHP

Databases
MySQL, PostgreSQL, SQL

CMS
WordPress

Security
Cybersecurity Fundamentals, Authentication, Authorization, Secure Coding, Web Application Security, Database Security

CAREER OBJECTIVE

To contribute as a Software Developer or Full-Stack Developer by applying programming, database and cybersecurity knowledge to secure, reliable, scalable and user-friendly software solutions.

EDUCATION

Bachelor of Computer Applications (BCA)

Tilak Maharashtra Vidyapeeth (TMV)

Cybersecurity

Pune, India

Graduated

Graduation date: To be added

Bachelor of Science (B.Sc.)

Kalay University

Mathematics

Kalay, Myanmar

Academic level: Second Year

Graduation status: Not confirmed

PRACTICAL PROJECT PORTFOLIO

Enterprise Resource Planning System

Status: In Development

Business operations, purchasing, sales, inventory, accounting and administration.

Technologies: React, TypeScript, Laravel, PHP, PostgreSQL

Point of Sale System

Status: In Development

Retail products, inventory, checkout workflows, reporting and multi-business administration.

Technologies: React, TypeScript, Laravel, PostgreSQL

Social Discovery Platform

Status: In Development

Profiles, content discovery, connections and social interactions.

Technologies: React, TypeScript, Laravel, PostgreSQL

Digital Wallet Platform

Status: In Development

Multi-currency wallet architecture, transaction management, authentication and security-oriented design.

Technologies: React, TypeScript, Laravel, PostgreSQL
